Drafted Men to Fill National Guard Regiments

(By United Press)

Washington, Oct. 13—The transfer of men to the national guard from the national army camps resulting from the necessity of bringing the former to full strength by taking drafted men was announced today by the war department.

Eight thousand go from Camp Dodge, Ia., to Camp Pike, Little Rock, Arkansas. Three thousand whites from Michigan and Wisconsin leave Camp Custer to join the National Guard division at Waco, Texas. Three thousand and Iowa, Minnesota and North Dakota, drafted men at Camp Dodge go to Deming.

North one and 5-10 miles to the middle line between sections 31 and 32, 134-28.

Northwest five miles to the line between sections 10 and 11, 134-29.

Northerly six miles to Nisswa lake section 14, 135-29.

Southeast two and a half miles via Hubert to the southwest corner section 17, 135-28.

East three miles to the southeast corner section 15, 135-28.

Southerly 11.25 miles via Merrifield on state road No. 3 to the Brainerd postoffice.

The length of the route is 31 and 3-4 miles and to the petition there were signed 101 names of actual patrons to mail service on this route. The establishment of this route is contingent on a certification by the postmaster that the required number of persons intending to become patrons have qualified as such by the erection of approved boxes, which in this instance is 85.

The service as established on this new route will be tri-weekly, Mondays, Wednesdays and Fridays, and the carrier will be selected from a list of eligibles whose pay will be \$768 until June 30, 1918, and after that \$844 per annum.

The establishment of this route is something that the people living in this section through which it runs have long desired and it is now up to them to see that every requirement is complied with in order that there may be no delay and no hitch in the process. It will be necessary for the patrons of the rural route No. 5 to erect their boxes before the service starts and in order to do this the posts must be set before the ground freezes and in every instance these posts must be on the right hand side of the road and of easy access so that the rural carrier may serve them without dismounting. This is something that should be impressed on the mind of every person interested in getting his mail on this route, for on this one thing alone hinges the entire matter.

All Ocean Ships
Under Govern-
ment Control

(By United Press)

Washington, Oct. 13—Practically all the ships in the overseas trade that fly the American flag will eventually come under government control it is stated in government circles.

WILL MICHAELIS SURVIVE?
Question Being Asked by Washington
Officials.

Washington, Oct. 13.—Official circles here were not surprised by news obtained through diplomatic channels that Vice Admiral von Capelle, German minister of Marine, has resigned.

Hopelessly cornered by the men whom he had accused of treason without having a scintilla of proof, Tirpitz's successor has been forced to resign under fire.

His "resignation" is the immediate result of his charges made in the Reichstag, that the mutiny in the German navy was aided and abetted by three radical Socialist leaders who further asserted, planned the seditionary campaign in the radical Socialist committee rooms in the Reichstag building.

In the meantime the route will be canvassed and the patrons will be asked to sign up for their boxes in order that the matter may be closed as soon as possible.

Son of Socialist Mayor in Guard House.
Minneapolis, Oct. 13.—For refusing to obey a general sanitary order posted at the base hospital at Camp Dodge, Iowa, Ralph Van Lear, son of Mayor Thomas Van Lear, of Minneapolis, is spending 30 days in the guard house, dispatches from Des Moines said.

Woman Leader of Battalion of Death

MISS VERA BOTCHKAREFF

Miss Botchkareff is the woman leader of the "Battalion of Death," which went to the front in Russia through lanes of rebelling men soldiers. This photograph shows her dressed in the uniform she wore into the battle line against the Germans.

Every councilman except one was present at Friday night's meeting of the city council, called by Mayor R. A. Beise to form an organization to push the sale of Liberty bonds in Brainerd. The one absentee was Alderman D. A. Peterson, called to Iowa on account of the death of his father.

The mayor urged a strenuous campaign. People were not merely asked to help. When their names were put down as committee men, they were drafted by order of the national government.

Mayor Beise quoted Arthur R. Rogers, chairman of the Liberty loan committee, Ninth federal reserve district that the secretary of the treasury had impressed upon all the very great importance of seeing to it that the bond issue now planned for, is as great a success as the previous issue. To do that, it is necessary that every man and woman in Brainerd must be seen and either given the opportunity of purchasing bonds or declining.

SUBMARINE DANGER LESSENS

Waning of Peril Shown by Big Cut in Insurance Rates.

Washington, Oct. 13.—A cut of 33 per cent in the cost of government insurance for crews traversing the submarine zone is taken as further evidence of waning U-boat effectiveness. Vessels trading with the Azores, Canary Islands and Morocco ports on the Atlantic were added by treasury order to those touching at European and Mediterranean ports as required sea-men's insurance.

The rate of three-fourths of one per cent or 75 cents per \$100, is decreased to one-half of one per cent, this reduction following one announced last week for the ships from 6 1/2 per cent of their value to 5 per cent. Decreased hazard is the reason for the drop.

British Hold all Gains --No Counter Attacks

(By United Press)

London, Oct. 13—British troops are holding all their latest gains along the Passchendaele ridge without German counter attacks according to General Haig's report. He said a heavy rain deluged the battle front through all of last night and there were no hostile counter attacks.

The fact that the Germans permitted the British to remain undisturbed in their newly acquired position was regarded as significant of the crushing blow Haig struck at the enemy.

Flanders Mud is Germany's Best Friend

(By United Press)

With the British Armies in Flanders, Oct. 13—The German's best friend in Flanders is mud. Its sticky, slimy yards depth in places reached out a viscous embrace to slow up Haig's resounding drive along the Passchendaele ridge. With the first objectives of British advance attained and held, the troops began to marvel at their own achievements considering the tremendous difficulties presented.

Haig threw men ahead over a six mile front.

Australian Troops Force Way Forward

(By United Press)

With British Army in Flanders—The Australian troops forced their way still nearer to Passchendaele the key-point of the ridge of that name. In their new positions the men from the antipodes dashed back the German counter attacks with the greatest ease. The assaulting enemy troops did not even reach the British lines.

Powerful German Attacks Repulsed

(By United Press)

Paris, Oct. 13—Powerful German attacks north of the Aisne have been repulsed in violent fighting last night says an official statement. No gains were made and the Germans lost heavily. Heavy artillery fighting is reported on the north bank of the Meuse.

British Troops Occupy German African Village

(By United Press)

London, Oct. 13—British East African troops have occupied Ruwanda, an official statement says. The seizure of the village is important inasmuch as the enemy had intended occupying it to protect the retreat of the main body. The British occupation will enable a flanking movement against their retreat.

Chicago, Oct. 13—World's series weather was of the clear cold brand this morning with a forecast of a rising temperature.

A frigid breeze sprang up as the Giants took the field at 12:20 P. M. The toss decided that the seventh game, if necessary, will be played in New York.

The Giants hopped to Russell's delivery from the jump off and scored two runs. Cicotte was put in to head off the rush.

Chicago gradually worked out from under and tied the score, 5 to 5, in the seventh inning.

Cold weather is slowing up players and making the game late.

In the eighth inning Perritt pitching for New York and Faber for Chicago.

New York 200 200 100—5 12 3
Chicago 001 001 33x—8 14 6

Batteries—New York; Sallee, Perritt and Rariden. Chicago: Russell, Cicotte, Faber and Schalk.

Umpires—O'Loughlin, Evans, Klem and Rigler.

Liberty Loan Half Way Point Reached

(By United Press)

Washington, Oct. 13—The second Liberty Loan reached its half way point of time but not in subscriptions. The nation is far behind the pace set for the loan. The whole country must subscribe between nine and twelve million dollars an hour during the 13 days the campaign still lasts.

Bulgarian Czar Wants Peace.

London, Oct. 13.—Reports that Kaiser William is now in Sofia aroused further speculation here today as to the extent of further friction between Bulgaria and Germany. Rumors have reached here that Czar Ferdinand of Bulgaria is insisting on peace.

U. S. NAVY TO BE ACTIVE

American Ships to Play Bigger Part, Says Mayo.

Admiral Asserts "Greater Navy" of This Country Is About to Become Prominent.

Washington, Oct. 13.—Plans are being brought to Secretary Daniels by Admiral Mayo, just back from a six weeks' visit to the British Fleet and the American warships in Europe. Admiral Mayo says America is about to play a bigger part in the war with her greater navy."

Speculation on Mayo's admission has taken a wide range, some stating he was especially interested in the feasibility of a grand naval offensive against the German submarine bases and even against the locked up German battle fleet.

However, the navy department's announcement of Mayo's return merely said:

"The purpose of the visit was to permit him, in conference with the other officers of the Allied navies, to become familiar in every detail with the situation as it is at present, what had been done before and to the plans for the future."

"Admiral Mayo visited the British fleet and our own forces in British waters in order that he might familiarize himself with the conditions under which the Allied forces are operating."

WOMAN'S REALM**CAMPAIGN FOOD CONSERVATION**

Dear Fellow Worker:

I am glad to write a letter of appreciation to all of you who have worked so faithfully over Minnesota from north to south in the Food Conservation campaign. It was not easy. It meant house to house visiting sometimes over long distance, I realize. We were asked by the government to go ahead long before the food administration was authorized by congress or organized. The ideas were new to all of us and we did not always understand the situation well enough to answer objections or questions.

Meanwhile the tremendous pressure in Washington where all the new machinery of war-organization had to be brought into being, where the best clerks were enlisting, where printing offices were gorged with work, while great vital questions were having to be decided by officials every day—all these things made it hard to get help from that end, not because they did not want to give it but because they could not meet all demands. This is why "Kitchen Cards" are slow in coming to signers.

Some of it is our fault; for about one-third of the cards sent in had incomplete addresses—that is they left off either the town or the state name, so that when they were put into the hands of clerks in Washington there was no knowing where they came from.

Considering all these things, we have made a fine beginning, and I am glad to tell you that our record is above most of our sister states.

But now, at last, the Food Administration has been authorized by congress and Mr. Hoover is bringing order out of chaos. We are also learning how very grave the food crisis is.

There is enough and more than enough for us, for we are a great prosperous nation. But in heroic France and Belgium, who are holding the line while we get ready, there is going to be suffering and even starvation unless, out of our abundance we spare enough to keep them alive and unless we so change our diet so as to send the foods—that-keep over to them.

So our preliminary campaign is not enough. The indifference or selfishness of certain groups in our state has been only seeming, for an appeal to America's generosity has never been made in vain, when the true situation is understood. We have got to let the people know. And we can do it.

Under Mr. Wilson, who is Mr. Hoover's Food Administrator in Minnesota, and our State Safety Commission, plans have been perfected so that we (the Woman's Auxiliary) the Safety Commission county directors, and the whole school system of the state are to unite in a fine campaign of education of patriotism and food conservation. There is to be a central state committee as follows:

Mrs. T. G. Winter, chairman; Mr. C. G. Schultz, Dept. of education; Mr. Fred Snyder, Pres. board of regents University of Minnesota; Mrs. W. T. Coe, vice chairman Woman's Auxiliary; Mr. A. D. Wilson, Food Administrator and Mr. C. W. Ames of the Safety Commission will be ex-officio members.

We are going to send you the details of the plan very soon, and knowing what you have already done, I feel sure we can depend on you for future patriotic, loyal and efficient help.

Cordially yours,
ALICE AMES WINTER,
(Mrs. Thomas G.)
Chairman Women's Auxiliary

"I Pray You do Not Have a Fit"BY MARGARET MASON.
(Written for the United Press)

I pray you do not have a fit, Dame Fashion will not stand for it. For anything that fits, my dear, Will simply not be done this year.

New York, Oct. 13.—The bi-annual fashion shows are now upon us and languid, languishing models are unquenchable a million dollars worth of furs and metallic embroidery and brocades all over the smartest shops.

All the worth-while gowns are there, they Doucet everyone will wear. Our old friend Pioret has a pair, stunning ones with Chinese air, and Lanvin, Callot, Premet too and Paquin also show a few.

Since the Chinese tendency is so pronounced in most all of the imported models the settings for the display of the gowns is all Chinked and lacquered and gilded and Chinese God and rugged up. The models glide around among the carved ivory and teakwood and Chinese porcelain as much at home as if they had never been outside the Great Wall of China in their lives.

Of course a few of the models are allowed to sit on the Russian steppes and look like Olga of the Volga in fur-trimmed peasant blouses smoothed in fur and hectic worsted embroidery, but in fact the similarity between the lines of the loose Russian blouse and the loose Chinese coat, the brilliant embroideries and those of Russia, and the lavish use of fur on both make it rather puzzling unless you are a connoisseur on Chinese and Russian art or at least of Russian and Chinese tea to tell one from the other.

After taking an oblique look and getting a Chinese slant on those different showings of imported models as rich in materials, reputation and price, my advice to the woman who cherishes the wild ambition of leading the mode back home is to wait until she gets there. Then let her hire the village seamstress and have that personage fit all her gowns on some one with a figure the exact antithesis of her own. When she does them everybody will be willing to swear she is wearing a Premet or Doucet model of the very latest.

For the main characteristic of all the new models is their non-fitting properties and the impression that they are built to go on a totally different figure from the one they adorn. Necks are hacked out straight across from shoulder to shoulder, or in loose ovals that pull hither and yon, sleeves are loose and flowing and wide, and the waists, if one may call them such, are guaranteed not to touch the human form at any given point or curve from shoulder to hip. Some of the skirts are caught up at unexpected and awkward angles and indicate that if they hang evenly for any space around the hem they are miserable failures indeed.

On the evening models, where draperies are the piece de resistance as 'twere the way the gorgeous lengths of metallic and velvet or silk en brocades are draped on the foundations of lace or gold and silver gauze, would cause the window dresser of the white front dry goods emporium back home to hide his head in shame.

They give the non-elect the disturbing impression that the designer had stood on the near side of the stool and thrown the drapes across the rooms to the lace swathed form on the other side, and then hid himself frantically to pin the wanton stuff 'ere it happened to light.

The whole idea of the season sartorially seems to be a striving after the sketchy impressionistic effect, or as photographers say, one of those artistic blurred portraits that make every one mystifying beautiful because they are so misty of detail—we must have a fuzzy outline.

No doubt the super-abundance of worsted embroidery that is used lavishly on every material to hand, even on lustrous chiffon velour will aid in the fuzziness.

If you can just manage to be fuzzy, ill-fitted and glittery with silver threads among the gold, or a bushel of beads all at the same time, your sartorial success for 1917-1918 is assured.

Surprise Party

A surprise party was given Mr. and Mrs. L. S. Budd on Friday evening. About twenty friends were present. The evening was spent in games, music, conversation. A pair of gold cuff buttons were presented to Mr. Budd and a gold brooch to Mrs. Budd. Mr. Budd is to leave in a short time for St. Cloud to take a position in the new automobile factory.

URGENT APPEAL FOR CLOTHING

The Associated Charities are very much in need of clothing for children of all sizes and ages.

The cold weather is here and there are a great many children who have not the necessary clothing for the winter. There are calls every day for clothing for the poor children of the city.

It has come to notice that many of the citizens are passing their clothing to the farmers who bring in their produce while they should be clothing the children of the city.

At the time the poorhouse was abandoned it was understood that each township would take care of their poor.

All those having clothing to contribute can leave them in the basement of the city hall or telephone 185. They will be called for if necessary.

AUDIENCE ENRAPTUREDBrainerd Music Lovers Appreciate
Cello Recital of Cornelius

Van Vliet

Never have Brainerd music lovers seemed more appreciative and enthusiastic than those who heard last evening that master cellist, Cornelius Van Vliet and his most capable piano accompanist, Harrison Wall Johnson.

The audience was entranced from the beginning to the end of the program by the pure, delicate, appealing tones of the violincello in the hands of Mr. Van Vliet and the perfect harmony and brilliant technique of both cellist and pianist.

The very difficult solo, Sonate of G. Valentini, which was the first number played last evening, had no terrors for Mr. Van Vliet. It was executed with such masterly fluency and such perfect understanding that it was hard for the audience to realize that one of the most difficult of all compositions was being played.

Every number was so satisfactory and brought out so many distinguished and artistic qualities of the musician that it is impossible to comment on them all.

One of the encores, (Mr. Van Vliet graciously responded to three) was the exquisite "Swan" of Saint Saens, and this brought out the most sincere interpretation of a very poetical musical composition and elicited a most delicate and appealing pianissimo.

It was fortunate indeed that the Brainerd Musical club could arrange to have Mr. Van Vliet come to this city, and there would be much rejoicing on the part of all who heard him last evening, if they were given an opportunity to hear him again.

Drama League

The Drama League, in the future, will meet on Monday instead of Tuesday on account of Red Cross work. The next meeting will be held at the home of Mrs. R. A. Beise at 3 o'clock P. M., Oct. 15th. Mrs. Walter Courtney will read "Hate Breeders," a war play.

A LIE NAILED

A. R. Rogers, district manager of the American Red Cross, has received the following from H. D. Gibson, general manager, which should be given the widest publicity:

A story is being industriously circulated to the effect that sweaters, socks and other articles knitted for the Red Cross are being sold either to the public in shops or direct to the soldiers. It is very important that you should issue a notice at once to each chapter denying this as vigorously as you know how. No articles whatever, either knitted or otherwise, made by Red Cross workers and turned into any Red Cross chapter, branch or auxiliary, or to any supply warehouse, are sold either to the soldiers or in shops. If any willful case of this sort should come to the attention of Headquarters the charter of the Red Cross chapter or subsidiary sanctioning it would be immediately withdrawn with full publicity. Should it transpire that an actual instance of the above character occurred wherein an individual sold articles, after their having been turned in to the Red Cross, such action would be clearly in violation of the fundamental law of the Red Cross and we would take vigorous steps to prosecute the offender. It is also true that persons, other than those who acquired the right prior to nineteen hundred and five, using the name or emblem of the Red Cross to assist in the sale of merchandise are violating the provisions of the federal criminal law and the offender should be reported to the United States district attorney for prosecution. There is no way to prevent people from making the same type of article as are produced by Red Cross workers and selling them for their own advantage, thus subjecting the Red Cross to unjust criticism. Should they use the name or emblem of the Red Cross in connection with such sales, however, they will be vigorously prosecuted.

Brazil to Use Seized Ships.
Rio Janeiro, Oct. 13.—The Brazilian government purposes to use seized German steamers for organization of international steamship lines in the interest of Brazil and the Allies.

Camp Dodge Men Take \$32,100 Bonds.
Camp Dodge, Iowa, Oct. 13.—National army men at this cantonment have subscribed \$32,100 to the second Liberty Loan. It is hoped to bring the total to \$100,000.

Cardinal Gibbons Urges Loyalty.
Washington, Oct. 13.—Disloyalty was likened to "resistance to the ordinance of God," said Cardinal Gibbons in a letter to President Wilson just made public. Explaining aims of the League for National Unity, the Catholic prelate declared: "We, as Christians, have no course open but that of obedience and devotion to our country." Citizens were urged to stand by the president in his effort to bring success to our arms and achieve those ideals of justice and humanity which compelled our entrance into the war."

That is the way T. P. O'Connor, Irish leader and member of the British parliament, summarized the war situation. O'Connor predicted Ireland would win home rule through the present Irish convention.

ALL EFFORTS TO WIN SLAVS FAIL

Every Attempt of Teuton Troops to Fraternize Comes to Naught.

COSSACKS SUSPICIOUS

Demobilization of Superfluous Troops Attached to Russian Army Has Begun—Old Men Go First.

Petrograd, Oct. 13.—According to a statement issued by the Russian war office, Austro-German troops are renewing their attempts to fraternize with the Russians, but so far every effort has failed.

The general situation is quiet, although some of the armies as well as some of the Cossack units still act with some suspicion towards the commanding staff. The question of peace is said to agitate the great mass of the Russian soldiers.

Mutineers Brought to Trial.
At some places there is agitation against capital punishment, but at the same time demands are made that punishment in the rear of the fighting front be enforced with greater strictness. The cases where orders are not carried out are comparatively rare, the soldiers who refuse to obey orders usually being brought to trial.

The war office announced with regret that the evil influence of the gendarmes and police still asserts itself. So far no measures have been taken to isolate these elements. Complaints of want of discipline among recruits are still numerous.

Favor Coalition Government.
The authority of the bodies elected by the soldiers themselves is increasing daily. The soldiers are reported to often express desires for instructive literature and lectures.

On the Roumanian front the idea of a strictly Socialistic government has not gained popularity. The general opinion of the army there is that a coalition government which would unite all factions should be formed.

The demobilization of superfluous troops attached to the Russian army has begun. The classes called for the years 1895-96, which include the men 43 and 44 years old, are the first to be relieved from duty. The men are being sent to their home villages in special trains, committees at the various towns on the way assisting in their return.

Nikitin Asked to Resign.
The central committee of the Petrograd Council of Workmen's and Soldiers' delegates has invited M. Nikitin to resign his membership in the new government on the ground that it fails to reflect the ideals of the Workmen's and Soldiers' organization. M. Nikitin was a member of the council of five and in the present cabinet is minister of the interior.

REPORTS SHORTAGE OF COAL

Geological Survey Finds Condition Due to Unprecedented Demand.

Washington, Oct. 13.—Anthracite coal operators and dealers representing most of the country's production and distribution of hard coal will confer with the fuel administration here on the subject of increasing the output to meet the winter's demands.

Although anthracite shipments the first eight months of the year reached a total of 6,456,000 tons against 5,790,000 for the same period in 1916, experts say the supply will not meet the demand. The dealers and operators will name a committee to gather data on the situation and later will form a permanent organization to work with the fuel administration.

TO INCREASE COAL OUTPUT

Preparations Making to Meet Winter's Demand.

Washington, Oct. 13.—Existence of a general coal shortage is admitted by the geological survey, which attributes the situation not to the failure of producers to do their best, but to the unprecedented demand.

The tremendous increase in manufacturing and transportation activity this year, a statement said, "has created a demand for soft coal in excess of any in the past, an increase in demand that is difficult to measure in terms of tons, but that is certainly more than the 10 per cent by which production has increased."

Maximum Corn Price Holds.

Chicago, Oct. 13.—The maximum price on corn for future delivery, as set by various grain exchanges of the country several weeks ago, will remain in force. This was decided upon at a conference of representatives of the principal exchanges of the country here.

T. Roosevelt in Training Camp.
Stamford, Conn., Oct. 13.—At the training camp of T. Roosevelt here, it is said the famous fighter is rapidly taking off flesh and before long will be in the pink of condition. Names of his boxing partners are withheld. He gave them a heavy workout Friday and finished off with some exercise for his wind, including a lot of Indian club swinging and a dash at the weights. He insisted he was merely at Jack Cooper's "health farm" to take off a little adipose tissue, or in other words, about 20 pounds of fat.

GREATEST FIGHTING FORCE

Biggest Army and Navy Is Aim of United States.

Salem, Ore., Oct. 13.—The plan of the United States government is to equip the army and the navy of this country so that it will be superior to any other military power on earth, Charles L. McNary, United States senator from Oregon, declared here on his arrival from Washington.

"This will be done," the senator said, "so the forces of this nation may strike vigorously and bring the war to a quick conclusion."

The proposed Pacific coast military highway will be provided for at the next session. Senator McNary said, as the War department favors it and all Western senators will support the measure.

To Use Famous Rebel Yell.
Camp Gordon, Atlanta, Oct. 13.—The famous rebel yell, the battle cry of the Confederacy, will ring over the battlefields of France when the boys of the 82nd division, now training at Camp Gordon, "go over the top." General Eben Swift, division commander, has requested Federal Judge William T. Newman, an old Confederate veteran, to arrange for a company of veterans to go to camp Gordon and demonstrate the yell.

Slackers Found in Lumber Camps.
Bessemer, Mich., Oct. 13.—With 41 men in the county jail here as a result of a search conducted for draft evaders, members of the Michigan mounted constabulary, aided by deputy sheriffs, planned to continue their work by visiting a number of lumber camps west of here. There are approximately 250 men scattered through the camps and all who cannot show registration cards will be taken into custody.

Among those arrested are a number who it is said have been certified for service in the national army.

ROADS TO ASK HIGHER RATES

Claim More Money Needed to Meet High Tide of Traffic.

Washington, Oct. 13.—Reports that the railroads are considering informally asking the government to help them obtain money with which to enlarge their facilities so they can cope with the high tide of traffic are regarded by officials here as forecasting a concerted move soon toward that end.

It is reported the roads have under consideration several courses. One is a petition for a general increase in freight rates. Another is to request the government to lend the railroads money on railroad securities for which special legislation will be necessary.

Bromley Tabernacle Announcements

SATURDAY
7:30—Evening Service at tabernacle.

SUNDAY.
9:30 A. M.—Sunday schools meet at their respective churches and march to the tabernacle in a body.

11:00 A. M.—Preaching.

2:30 P. M.—Lecture to men only at tabernacle by Dr. Bromley.

2:30 P. M.—Lecture to women only by Miss Cain at Methodist church.

6:15 P. M.—Young Peoples prayer meeting at Bethlehem Lutheran church.

7:30 P. M.—Preaching at the tabernacle.

There was a big time in the old tabernacle last night. It was high school night and the students turned out in force. There was something doing all the time and it was all done with such spontaneity and good cheer that everyone caught the spirit and enthusiasm. It was a great night in town. At the conclusion of the sermon fifty or more came forward and expressed their desire to lead Christian lives.

Supper was served to the students in the Chamber of Commerce rooms. Plates for two hundred were provided and one hundred eighty were used. One of the students said it was the largest gathering of the high school at any social function in her knowledge. The dining rooms echoed with school songs and yells. During the height of the jollity Mr. Cohen, president of the Chamber of Commerce, entered and was greeted with cheers. A vote of thanks was extended to the Chamber of Commerce through him for the courtesy of the use of the rooms.

Dr. Bromley was one of the guests invited and he spoke a few minutes of the worth of school and educational training. He told several stories which were received with cheers. Mrs. Ed Slipp was chairman of the committee of ladies who put on the spread and she had for her helpers ladies from the various churches. Odd Fellows hall has been secured for the noon day lectures and the business men have responded in a marked degree in favor of the committee putting on the course of theological lectures the evangelist has upon his sleeve. No collections will be taken at these noon day hours and no invitation will be given.

The text was from Daniel one eight. "Daniel purposed in his heart that he would not defile himself with the king's meat." One of the most contemptible things is moral cowardice. Through moral cowardice man may face the cannon's mouth but fall before a woman's blandishments. Some men have brave legs but poltroon hearts. The public man who is afraid to come out on the side of the right is moral coward; the business man who is afraid of his business if he takes a stand for righteousness is such a coward; the preacher who is afraid to stand in his pulpit and blaze forth truth is pusillanimous.

I like a preacher who is not afraid of what some sheep or goat in his flock may say but who stands like a flint right and teaches the whole gospel of God. Sin is sin and the preacher must count it so whether it is in the man of high or low degree.

GERMAN MARINE MINISTER QUILTS

Socialists Win When Von Capelle Resigns Owing to Mutiny in Navy.

MICHAELIS MAY GO TOO

Discontent Over U-Boat Policy Seen in Upheaval Which is Most Serious Yet Encountered by Germany.

Amsterdam, Oct. 13.—According to the Frankfurter Zeitung, Vice Admiral von Capelle, the German minister of Marine, has resigned.

Don't Want Michaelis.

London, Oct. 13.—A dispatch to the Exchange Telegram from Amsterdam says the Rhennish Westfalen Zeitung declares German Socialists have informed Chancellor Michaelis they will not vote for the desired credits unless he resigns.

Is Socialist Victory.

London, Oct. 13.—In the resignation of Admiral von Capelle, the German Socialists have won a big victory over the government, and the pan-Germans have suffered a severe check. It is hardly too much to predict that the fall of the minister of marine will be shortly followed by the resignation of Chancellor Michaelis, who has supported Von Capelle in his efforts to strengthen the hand of the war party against the extreme Socialists.

Result of Naval Mutiny.

The resignation of Von Capelle apparently is directly a result of his recent revelations of mutiny in the German navy. The minister made use of these revelations to crush the radical Socialists, charging that three of their leaders—Haase, Dittmann and Vogt—had conspired to foment the mutinous plots among the sailors. In this strategy he was supported by Chancellor Michaelis and Heiferich.

Result Not Expected.

The immediate result of Von Capelle's disclosures and charges against the Independent Socialists was exactly the contrary to what he had looked for. It heated at one stroke the split within the Socialist party and presented a solid front to the government.

It won for the Socialists the support of the Catholic centrum, which holds the balance of power in the Reichstag, and also of the National Liberals, and brought a speedy declaration of war on Michaelis from Scheidemann and his followers.

LIBERTY BONDS SELL SLOWLY

Only Seven Per Cent Sold in First Eleven Days.

Washington, Oct. 13.—The Liberty Loan has moved only \$18,739,550 nearer its \$5,000,000,000 goal, or approximately one-third of 1 per cent. The total for the entire campaign thus far as officially announced stands still at less than 7 per cent on the basis of returns received Friday and including subscriptions reported to all reserve banks, except Minneapolis, up to the close of business Thursday.

At the rate subscriptions are reported it would take from eight to nine months to obtain the \$5,000,000,000 desired.

"At the end of 11 days sale of second Liberty Loan bonds," the treasury department's announcement reads, "total subscriptions of \$344,195,550 had been reported to 11 of the 12 reserve banks in the United States. This is less than 7 per cent of the maximum amount of subscriptions expected by Secretary McAdoo before the close of the drive for \$5,000,000,000 on October 27.

MUST SUPPORT LIBERTY LOAN

Banks to Lose State Deposits if Disloyal to Government.

St. Paul, Oct. 13.—State Treasurer Henry Kines has been directed by the state board of deposit to withdraw immediately all state funds from banks that assume an indifferent or disloyal attitude and to deposit the funds in banks in the same localities which are enthusiastically supporting the government in the Liberty Loan bond sale.

The resolution, which in effect cancels the designations of state depositories failing to aid in floating the new Liberty Loan, was offered by F. E. Pearson.

NICHOLAS NOW IN MONASTERY

Former Czar Moved From Tobolsk at Own Request—To Have Garden.

Petrograd, Oct. 13.—At his request, Nicholas Romanov, former emperor of Russia, and his family have been transferred from Tobolsk, Siberia, to the Abolom monastery, 14 miles distant. He complained that his Tobolsk prison had no garden and that he and his family were annoyed by curious crowds.

McGarrity Denounces England.

Philadelphia, Oct. 13.—Expressions of loyalty to the United States were couched with denunciations of England as "the greatest suppressor of liberty and small nations in the world," in a statement issued by Joseph McGarrity, president of the Irish Volunteers of America. McGarrity declared that "if it is a crime to sympathize with Germany as against England," he would "pled guilty of the crime and glory in the fact." McGarrity was out of the city when the exposure was published, and has just returned.

HIGH SCHOOL AT TABERNACLE

(Continued from page 5)

I like to read about Martin Luther for he was a preacher as fearless as any who ever lived. He said "Nobody but God Almighty can stop me in this movement for freeing the conscience of men from its fetters." He blazed the way for democracy.

Daniel was such a preacher. He was determined to do the right thing. He dared to look the world and its king in the face and say "I'm going to do right." He wasn't afraid of a boycott, nor of losing business, nor of going against the majority rule, nor of what folks might say.

Public opinion is the biggest god before whom men bow today. "What will people say," is the question asked before every undertaking. Not what will God say or what is right but how will others look at it?" A motto over a noblemen's gateway reads as follows: "They Say", "What Do They Say?", "Let Them Say." I believe in majority rule if the majority is right, but in minority rule if the minority is right. There was a general in the Civil war who weighed but ninety-eight pounds but ninety-eight pounds of that was backbone. And it requires backbone and plenty of it to stand out against a crowd for decency and order.

A high school professor of my acquaintance lost a most enviable position because he was a temporizer and endeavored to face both ways on every issue. The compromiser is at last caught in his own net. The happiest moment in the life of such a man is when he accepts Christ and sets his face like a flint to follow out His teaching. He immediately commands self-respect and goes forth like a Daniel to be a force in the community. No one can be the right kind of a man till he is converted and lives the Christian life. It makes for happiness, self-respect, and an ease for dealing with complex situations.

God bless the school teachers who are consecrated to their tasks. There are two classes of men who are underpaid—the teacher and the preacher. The school teacher works with little sympathy and the preacher with barely none at all. He is set against the drift all the time. Boys and girls help your teachers by your industry and honesty in school. Count the honor roll a high privilege. Work all the time for mental development and soul culture. The burden of the school room will help you bear the burden of life at last.

The pioneers of the country have been the preachers—railroads have recognized this fact and have given

passes and special rates to ministers of religion. If you have a teacher or preacher who is out and out for holiness of life and consecration of duty make his path easier by your encouragement.

SPY PLOT EXPOSURE

Documents Smuggled to Germany in Hogsheads of Tobacco.

Diplomatic Correspondence Sent by Bernstorff Who Used Vice Consul.

Richmond, Va., Oct. 13.—According to information received here, former German Ambassador von Bernstorff smuggled diplomatic documents out of the United States in hogsheads of tobacco, shipped by E. K. Veiter, former German vice consul, who up to recently had operated large tobacco warehouses here.

Examination of shipments in England is said to have disclosed this channel of communication and to have furnished the state department with one of its first proofs of the ambassador's direct connection with American plotters.

The Veiter warehouses recently were closed by federal agents and Veiter sent to an internment camp.

Seadler Was Disguised.

Honolulu, Oct. 13.—The famous German commerce raider, Seadler, which preyed on Allied commerce seven months in the south Pacific before meeting her fate on the reefs of Mopelia Island, passed inspection of a British cruiser by assuming the disguise of a lumber carrier. It was revealed here by Captain Smith, master of the American schooner, R. C. Slade, one of the known victims of the German craft.

Catarrhal Deafness Cannot be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy.

Catarrhal Deafness is caused by an inflamed condition of the mucous lining of the eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result.

Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of deafness are caused by catarrh, which is an inflamed condition of the mucous surfaces. Hall's Catarrh Medicine acts thru the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by all's Catarrh Medicine. Circulars free. All Druggists, 75c.
